<b>Description</b>			
<p>This will add a new button to the main dialog (the 'play-settings-high scores-about' one) with a link to a 3x3x3 Solver. Once there, a user will be able to set up a position (by first selecting one of the 6 face colors and then touching a cubit face to paint it with this color) and click a button which will present the user with a scrollbar showing the whole solution.</p>
